<sup>1</sup>Moneyfacts Group plc of Moneyfacts House, 66-70 Thorpe Road, Norwich, Norfolk, NRI IBJ is entirely an independent and impartial source of information and their selection charts can be seen throughout the UK national press and media. The rate is based on the average of the top 5 savings rates in the business savings market published in the best buy tables on the Moneyfacts website [www.moneyfacts.co.uk](http://www.moneyfacts.co.uk) across the categories of no notice, 7, 30, 60, 90 and 90+ day notice accounts. No more than one product from any bank, building society or financial institution is taken into account when calculating the AER.

<sup>2</sup>AER is the Annual Equivalent Rate and illustrates what the interest rate would be if interest was paid and compounded once per year. 'Gross' is the rate of interest payable before the deduction of tax.
